

10th July 1989

Dear Tommaso,

Please find attached "our" paper on the Werner Report revisited. Our translators have looked at it and have made a number of editorial suggestions and I have redrafted a few sentences in the light of the final Report (especially on the ECU). Of course, any further amendments suggested by you would be welcome. However, please remember that I have promised to send Joly the whole package of papers on Thursday, 13th July. In the course of today I will also have a look at the table of contents and the introductory note and I should be able to telefax them to you tomorrow morning.

Best regards,

Gunter D. Baer
